

IOTA-V177 Vinyltri isopropoxy silane

CAS: 18023-33-1

Physicochemical properties:

Molecular Weight: 232.39200

Exact Mass: 232.14900

PSA: 27.69000

LogP: 2.92550

Density: 0.866

Boiling point: 180°C

flash point: 51°C

Refractive index: n_{20/D} 1.399

Vapor pressure: 0.157mmHg at 25°C

Storage:

Dark indoor storage, maintain ventilation, cool, dry. The container should be sealed in order to avoid the moisture after opening the container.

Packing:

Plastic barrel, net weight 25kg/200kg.
